

# A Fast SAT Solver for Isabelle in Standard ML

Armin Heller

December 14, 2021

## Abstract

This contribution contains a fast SAT solver for Isabelle written in Standard ML. By loading the theory `DPT_SAT_Solver`, the SAT solver installs itself (under the name “dptsat”) and certain Isabelle tools like Refute will start using it automatically. This is a part of the DPT (Decision Procedure Toolkit) SAT Solver written in OCaml.

Theory `DPT_SAT_Tests` tests the solver on a few hundred problems.
